One of the goals of T SMA Plant Tours is to help our manufacturers and their support team gain best practices and learn new processes by observing other operations. Crucial to the success of any manufacturer are lean strategies and efforts. OFS Brands, the largest independently owned manufacturer of wood commercial office furniture in the United States, has prepared a unique Lean Presentation for T SMA that you don't want to miss!

How does OFS Brands remain so successful? Join us to find out how this company, who started in 1935, continues to grow today under third generation leadership. Operations include manufacturing facilities totaling over 11 million sq. ft. and over 1,500 employees in three states. OFS Brands includes OFS, First Office, Carolina Business Furniture and Loewenstein.

This plant tour is FREE, and open to the first 35 T SMA members registered; corporate members will be given first priority.
